## ABOUT

More than ten years ago, we had a vision -- to bridge the gap between the service provider and the manufacturer.

Our mission is to work smarter every day and offer improvised signage solutions that help our customers create an innovative product.

We are a group of individuals with years of experience in the field of trading signage, fabrication, display, shop fittings, fit out, exhibition, gift and premium.

ADS partners with high quality suppliers from around the world that include Industrial Tooling Corporation (U.K.), Graphtec (Japan), Lorin (U.S.A.), Alusign (Belgium), Innovative Plastics (U.S.A.), Aleris (Belgium), Redtape (Taiwan), Royal Sovereign (Korea) and UNIST (U.S.A.).

## FROM TOOLS TO MACHINERY

Choose from a range of options unique to your project requirements - here is a comprehensive list of what we offer.

Aleris Anodized Aluminum sheets (Belgium)

Aleris 55HX is a solution for critical anodized applications in facades and claddings, ceilings and walls as well as roofs. These sheets are widely used across all Audi Showrooms in the UAE as well as in the Ferrari World Theme Park.

### *Alusign Modular Sign System (Belgium)*

Alusign is the leading supplier of display sign systems in the world. These systems breathe elegance and are entirely flexible in its installation.

### *Graphtec Cutting Plotters (Japan)*

Coined the term 'WORLD'S NO.1 CUTTING PLOTTERS', Graphtec's electronic cutting systems are designed to meet the demanding requirements of design professionals in sign industry, garment and apparel industry, reprographics, design and packaging industries.

### *IPI Plastic Engraving Sheets (U.S.A.)*

IPI plastic laser engraving and rotary engraving sheets offer a wide range of stone patterns and colors that range from speckled sands to granites rich in natural beauty as well as light linear.

### *ITC CNC Tooling (U.K.)*

From solid carbide and PCD tooling, through to indexable milling, turning and boring, plus top quality tool holders, ITC has an unbeatable product range widely used in sign making, fabrication, carpentry, woodworking, and the mechanical industries.

### *LED Lighting*

Create the right lighting environment with our SAMSUNG 5630SMD, 5050SMD, 3528SMD, 2835SMD and 2323SMD LED lighting. Suitable for cove and contour lighting and also, in hotels, shopping malls, homes, cabinets etc.

### *Lorin Anodized Aluminium Sheets (U.S.A.)*

Lorin anodized aluminium sheets provide remarkable opportunities to work with thousands of looks, textures, colors and finishes that reflect creativity, advanced technology and environmental responsibility.

*Redtape (Taiwan)*

Our double-sided adhesive tapes come in varied widths and lengths and they offer instant grab and UV stability. These tapes are used for applications such as fast bonding, instantaneously replacing rivets, screws or liquid adhesives. Our double-sided foam tapes can be used for internal bonding of signage, display and nameplates.

*Royal Sovereign Laminators (Korea)*

Royal Sovereign provides a wide range of wide format roll laminating and pouch laminating solutions ideal for homes, offices and even professional grade settings.

*UNIST Mist Lubricating Systems (U.S.A.)*

UNIST mist lubricators provide innovative solutions in the design and manufacture of fluid application systems for the industrial market. These help save money for our customers in their manufacturing processes by reducing the amount of fluids consumed.

ADS aims to offer the marketplace with reliable products, best price and even better after sales support. At ADS, we aim, on a continuous basis, to gain industry knowledge and insight about products so we can attend to our client's project needs much faster and easily.
