## COMPANY PROFILE

### AL TAYEB WATER TECHNOLOGY W.L.L.

#### GARDEN DIVISION

Al Tayeb is one of the oldest trading companies in Qatar. We were founded by Mohammed 'Al Tayeb' Mustafawi in 1972. The family group has grown over the years to include the major contractor Qatar Building Company [QBC].

In 2012 Al Tayeb was modernised into an integrated trading and services group under the '*water*' + '*garden*' + '*home*' brands and a new subsidiary, AL TAYEB Water Technology WLL was created.

- Al Tayeb **Garden** is our landscape design, implementation, plant supply and on-going maintenance division. We have a team of Italian designers, agronomists, environmental and irrigation engineer. We have plant nurseries in Qatar and in Italy.
- Al Tayeb **Water** is our water technology division that sells a range of exclusive European products related to the pressurization, purification, and protection of water.
- Al Tayeb **Home** sells and installs an exclusive range of bathroom sanitary ware, kitchen appliances, marble and interior finishes.

We believe this to be a unique combination of products and services in the Qatar market. A quick review of our brochure will give you an instant understanding of the products and services we offer.

We believe that the AL TAYEB GROUP can bring both innovation in ideas, the highest quality products and timely completion of world-class projects that the State of Qatar continually strives to deliver.

We hope with this application we can formally become a plants supplier and landscape contractor to satisfy all your needs.

Yours sincerely

**Al Tayeb Water Technology W.L.L.**

## a. Introduction

**Al Tayeb Water Technology W.L.L.** is one of the oldest trading Companies in Qatar. Today, Al Tayeb was expanded into an integrated trading group that incorporates three divisions: Home, Water & Garden.

- **Home** division is the leading supplier in Qatar of the finest interior wall finishes, kitchen appliances and luxury an exclusive range of bathroom sanitary ware and marble floors.
- **Water** division has operated in Qatar for 41 year, and has supplied both the public & private sectors with a full range of commercial and industrial productions a full range of pumps and pressure sets, pressure pipe and fittings, water filters & water chillers, meters and other products relating to the water.
- **Garden** is our landscape and garden contractor division is led by a team of landscape designers, agronomist, architects, engineers, CAD designers and other specialized workers. It is the first of its kind in Qatar that provides a fully integrated service from initial design concept to execution including plant supply and maintenance. We work on both public and private projects in Qatar including residential compounds, luxury palaces and villas, road beautification and public parks.

We have our nursery based in Qatar for the propagation and cultivation of all species and varieties of ornamental and fruit plants that we can use in any and in all kinds of landscaping project in Qatar.

*Al Tayeb - a fully integrated solution*

*Al Tayeb Garden Division* has an international expertise in landscaping works, thanks at its exclusive partner **Centro Verde Vivai S.r.l.**. It is an Italian Company of architectural, planning and development of landscaping, which has provided innovative and environmental-sustainable solution to public and private client for over 30 years. It has established itself as a specialist in providing a full integrated service from initial design to execution including plant supply and maintenance. Centro Verde Vivai work on both soft and hard landscaping and irrigation projects including luxury private villas, residential compounds, hotels & resort, public road & roundabout beautification, urban parks, industrial green area, urban furniture and external structures & pergolas.

The passion for landscape is the philosophy that leads the company and its employees: architects, landscape designers, agronomist, engineers, CAD designers, surveyors and other specialized workers.

Along with its strategic partners, award winning architects and engineers (**Alma engineering S.r.l.**), and leading nursery (**Ecoverde mediterranea S.r.l.**), the company is committed to working the highest standard in developing a green space that is aesthetic, functional and ensures a sustainable environment.

Centro Verde Vivai produces and grows ornamental plants and mature trees of all species and variety. The production area included more than 40 hectares of nursery, based in Italy. It's able to provide high quality plants, to perform the planting and to ensure their engraftment. **It's able to satisfy any request coming from all over the world.** Centro Verde Vivai deliver plants in Italy, Greece, Montenegro, Albania, Croatia, Malta, France, Spain, Portugal, Belgium, Republic of Azerbaijan, Russia, Turkey, Jordan and **Qatar**.
