

Sinagate Trading & Contracting WLL

*Creativity.....* Technology.....

Company Profile

Professional

## WHO WE ARE

Sinagate Trading and Contracting is one of Qatar's leading Information & Communication Technology (ICT) Solutions and service providers, with experience serving public & Private sectors in Qatar for Over 8 years. We are committed to innovation and sustainability and offer a complete portfolio of network technologies as well as professional services including consulting and systems integration, maintenance and managed services.

We have been at the forefront of Information Communication Technology. From strategy to design, to implementation, operation and ongoing support. We are highly qualified and experienced in the field of Information Technology and Low Voltage Systems.

Our professional services enable our customers to quickly deploy and better manage their needs and create new, revenue-generating services.

## OUR SERVICES

- Enterprise Solutions
- Structured network cabling
- CCTV & security systems
- Audio Visual systems
- Data center solutions
- UPS Solutions
- ELV Systems
- Cable management Systems
- Home automation solutions
- Electrical and Lighting Works

## WHAT WE DO?

### Enterprise solutions:

Design, implementation and integration of various technologies to provide a comprehensive solution for all enterprises. Data and voice solutions for the enterprises, Server and network cabinets, switches, patch panel, cable manager, VPN, Firewalls, NAT, Remote Access, Web Access Filter,

- Servers, PCs
- Storage (NAS & SAN)
- Virtualization
- Backup solutions
- IP telephony and voice
- Networking solutions
- Wireless solutions

### Structured network cabling:

Designing, implementation, integration and testing commissioning for structured network cabling for copper and fiber solutions.

- Copper cables
- Fiber optic cables
- Fire rated cables

### CCTV & security systems

Designing, implementation, integration and testing commissioning for security systems and MOI approval.

- CCTV solutions
- Access control systems
- Gate barrier systems
- Intrusion detection systems
- Car park management systems.

### Audio Visual systems

Designing, implementation, integration and testing commissioning for

- SMATV & IP TV solutions
- Public Address Systems
- Digital signage and Video Walls
- Video conferencing solutions

## Data center solutions

Designing, implementation, integration and testing commissioning for Data center solutions.

- Racks
- Cable management trays
- Raised (Anti-static) flooring

## UPS Solutions

Supply and installation for UPS systems and related electrical works.

- UPS solution standalone and rack mountable.
- Centralized UPS systems
- Precision AC (CRAC & CCU Units)

## ELV Systems

Designing, Implementation, integration and testing commissioning for ELV systems.

- Building management systems
- Fire alarm systems
- Home automation systems

*uninterruptible* 25.2903 698  
51-5388189

## Cable management Systems

Designing, implementation, integration and testing commissioning for trunking projects.

- Metal/PVC conduits
- Cable tray and accessories
- Cable trunking and accessories
- Cable management solutions

## Home automation solutions

smart home/ home automation for home, palaces, hotels and offices. Both wireless & wired solution cover A/C, Curtain, Lighting and security systems.

- Smart Home/ Home automation solution
- Lighting Control Solution
- A/C Remote Control Solution
- Curtain Control Solution
- Environment Awareness Solutions
- Home Secure Solution

## Electrical and Lighting Solutions.

Designing, Implementation, integration and testing commissioning for electrical works and lighting solutions.

- Electrical cabling and termination
- Electrical sockets, switches and devices installation
- SMDBs, Isolator and bus bar connections.
- Lighting solutions.

## OUR CORE STRENGTH

- 'Vendor Neutral' full Design and Build end-to-end services
- Wired and Wireless Network for the Communications Infrastructure.
- Systems Integration - Voice, Video, Data and other ELV applications on the same IP Backbone.
- Network Security – Design, Consultancy and Implementation.
- Data Storage and Management - We help customers design, build and manage intelligent, flexible and secure data infrastructures.
- Expertise in managing Annual Maintenance and Support Contracts for mission critical networks and telephone systems

## OUR VISION

- ◆ A truly liable, high quality Services & Solutions exceeds customer expectations.
- ◆ Sinagate creates new value through a professional team, to make a difference in IT Solutions and Services.
- ◆ Our operations include a diverse range of IT Solutions & Services
